

## HP ProLiant ML150 G6 Server

Data sheet

The HP ProLiant ML150 G6 Server now supports Intel® Xeon® 5500 series processors, delivering enhanced compute performance. It also brings huge improvements in memory capacity, storage, and deployment options, making it expandable and affordable for growing businesses.

With next-generation Intel processors and essential remote management features, the ML150 G6 tower server provides advanced server functionality and outstanding value at an entry-level price point. In addition, highly-efficient redundant power supply and redundant fans provide greater power and thermal protection to keep your business running.

There are also hot-pluggable hard disk drives (HDDs) and optional RAID controllers that can help limit network downtime. In addition, with data security being a major concern today, the Trusted Platform Module (TPM) option can prove useful through its support for data encryption.

Designed to meet your IT needs today, while providing new capabilities for the future, the HP ProLiant ML150 G6 is well suited for small-to-medium businesses as well as compute-intensive cluster environments that require dependable server performance.

Growing businesses can look to the HP ProLiant ML150 G6 Server for a server platform that delivers reliability and quality while providing headroom for expansion plans. Engineered to meet the needs of corporate small sites, it comes with improved performance, easy management, and scalability—enabling you to establish a worry-free IT environment.

## Key features and benefits

### Faster computing power

Built upon the latest industry-standard technology, the HP ProLiant ML150 G6 Server comes with the following features:

- Latest Intel Xeon 5500 processors with QuickPath Interconnect architecture provide ultimate processor performance
- Large cache size yields more transaction processing
- 12 DIMM slots supporting up to 48 GB of DDR3 1066 MHz Registered/Unbuffered memory—make the ML150 G6 ideal for demanding workloads
- Integrated PCI-E Generation 2 slots deliver greater bandwidth
- Up to 8 Large Form Factor (LFF) SAS/SATA disk drives—through optional second drive cage—provide storage expandability to meet future business growth needs
- Embedded HP Smart Array B110i SATA RAID Controller and a wide array of Smart Array controller options allow you to meet your storage requirements with ease

### Easy management

Embedded Lights-Out 100i (LO100i) remote management allows you to monitor your server from any location, anytime, through a LAN or the Internet. This offers basic remote control through telnet, browser, and Intelligent Platform Management Interface (IPMI 2.0). These features enable access to system management information to dramatically

reduce the need to physically visit or find onsite assistance for troubleshooting, deployment, and updating.

- Lights-Out remote management enables you to monitor server health and react responsively to events, should they occur
- Licenses are available to provide additional LO100i advanced remote management capabilities

### Convertibility and Connectivity

The ML150 G6 comes with convertibility and connectivity options that facilitate easy deployment.

- The Tower to Rack Conversion Tray Universal Kit enables easy connection to the existing rack-mount server

### Reliability

- Optional Trusted Platform Module helps address security requirements for businesses that require higher-level of identity, data, and network security (<http://h20000.www2.hp.com/bc/docs/support/SupportManual/c01681891/c01681891.pdf>)
- Latest HP Smart Array Option cards offer seamless upgradeability from zero memory to 512 BBWC and high performance RAID protection
- Optional high efficiency 750W Redundant Power Supply and redundant fan offers more protection, enabling you to keep your business running
- Support for hot-pluggable SAS and SATA drives facilitates greater flexibility in storage management
- Advanced ECC (error correcting code) memory delivers unsurpassed memory protection and server availability

This server now offers the HP Insight Management Agents and HP Insight Management WBEM Providers to facilitate robust system health monitoring through HP Systems Insight Manager (SIM)
<b>Redundant power supply</b>	Optional
<b>Redundant fans</b>	Optional
<b>Warranty</b>	1-year parts/1-year labor/1-year onsite; 3-year/1-year/1-year (Asia Pacific except Japan)

## Ideal environment

The HP ProLiant ML150 G6 Server is ideal for small and medium environments, corporate workgroups, and remote locations.

### **Small and medium organizations with 10-100 clients and limited IT resources**

- Simple to service and upgrade
- Easy to deploy
- Highly expandable platform
- Trusted by value-conscious businesses

### **Enterprises with 1,000-10,000 employees spread across small offices**

- Expandable to higher load/performance
- Well-suited for cost-conscious enterprises running “non-critical” hardware applications

### **Corporate workgroups or remote locations**

- Entry-level server solution for budget-conscious corporations

## Ideal applications

Packed with industry-standard technologies, the ML150 G6 provides the power needed to tackle demanding business applications such as:

- File and print
- Small or medium e-mail server
- Small vertical applications or databases
- Shared Internet access and LAN infrastructure

## HP Services

### **When Technology Works, Business Works.**

The challenge of virtually every IT organization is similar: to develop and maintain an agile, efficient server infrastructure that delivers the service levels your business needs.

HP Technology Services offer a comprehensive portfolio of HP Care Pack Services to help design, deploy, manage, and support your IT environment, enabling cost-effective upgrades to standard warranty with easy-to-buy, easy-to-use support packages.

### **Minimum Recommended HP Care Pack offerings**

- Three-year, next business day response onsite, 9-hour x 5-day coverage, hardware support
- Hardware Installation only

### **Enhanced service level Care Pack offerings**

- Three-year same business day, 4-hour response onsite, 13-hour x 5-day coverage, hardware support
- Hardware Installation plus operating system installation and startup

### **Benefit from HP Care Pack Services helping you**

- Reduce deployment time and manage ProLiant server solutions smoothly and efficiently
- Increase uptime and performance of server availability to your business
- Detect, diagnose, and repair problems to quickly save time, money, and resources
